### Corporate Sports Club

Developed a comprehensive sports event management platform for Corporate Sports Club. The site provides detailed information on the club's history, showcases ongoing, and upcoming events, and features a gallery, blogs, and contact information. It allows individuals to register for events and enables corporations to outsource sports event management services via a contact form or displayed contact number.

### Hospital Token Management System

Developed a hospital token management system enabling patients to register for tokens via an token registration form. The system displays registered tokens in the doctor panel and shows the current token being called in the waiting or reception area. Doctors can manage and conclude token registrations through their dedicated panel.
